Four-Technical Specification:

Working Condition and characteristic					
Rated Voltage	AC220V	Rated Frequency	50/60Hz		
Rated Current	<1A	Rated Power	20W		
Insulance	>20M	Waterproof Level	IPX4		
Load Parameter					
Load	Rated Voltage	Rated Frequency	Rated Power	Others	
Ceiling light	AC12V		5W		
Fan	DC12V		2.5W		
Speaker			8W		

	Dimensions	
Keyboard	Length*Width*High 150*86*49.5	Unit: mm
Control Box	NONE	

Remarks:

- 1. Without the permission of our technical department, please don?t enlarge the load power.
- 3. The installation of keyboard is attached in the appendix

Five-Malfunction Analysis:

During the operation of this product, if any abnormal malfunctions happen, please ask qualified technician to refer following analysis to remove malfunctions

Malfunctions Type	Analysis (Solutions)	
	1. No power connection (Connect power supply)	
Can?t turn on the	2. Check whether there is output AC12V from the transformer secondary, if no	
system, no display	voltage, check whether there is AC220V on primary, if there is 220V voltage,	
on the screen	then transformer is broken.	
	3. If there is AC12V output, then control system is broken.(replace)	

Light, Fan don?t	1. Check the output voltage of light (AC12V) and fan (DC 12V), if voltages are		
work	ok, then light or fan is broken. (Replace)		
	2. If there is no voltage on output of light and fan, then control system is broken.		
Too much noise,	1. The Antenna is not in a good position. (Put it on the best position)		
less Receipt	2. Electric box is broken. (Replace it)		
Channels	(

Six-Special Declaration:
