Le choix des types de vis et chevilles, ainsi que la méthode de perçage pour les fixations sont fonction de la nature et de la qualité du sol, et de ce fait, relèvent de la seule compétence et responsabilité du poseur.

As floor type and quality will determine choice of screws/bolts, and drilling method for fasteners, installer shall use professional judgment in selecting appropriate options.

La elección de los tipos de tornillos y clavijas así como el método de taladrar para las fijaciones se hará en función de la naturaleza y la calidad del suelo y esto es solo de la competencia y responsabilidad del instalador.

La scelta dei tipi di viti e tasselli, così come il metodo di foratura per i fissaggi sono in funzione della natura e della qualità del suolo, e di conseguenza dipendono esclusivamente dalla competenza e responsabilità dell'installatore.

Die Wahl der Schrauben und Dübel sowie der Bohrmethode für die Befestigungen sind von der Bodenbeschaffenheit und -qualität abhängig und unterstehen der alleinigen Kompetenz und Verantwortung des Monteurs.

Выбор типа винтов и штифтов, а также способа сверления для креплений зависят от характера и качества пола, и в связи с этим только от компетентности и ответственности укладчика.
